

About Back Country Horsemen of America

Back Country Horsemen of America has been around since 1973 working to perpetuate the historic use of recreational stock in the backcountry.

Our Mission: Our purpose is to perpetuate the common-sense use of horses in America's back country, wilderness and roadless areas; to assist various government and private agencies in their maintenance of said resources; to work to ensure that public lands remain open to recreational stock use; and to educate, encourage and solicit active participation in the wise and sustaining use of the back country resources by horsemen and pack stock.

Bylaws of the Selway-Pintler Wilderness Back Country Horsemen

We use equine stock in the wilderness and primitive areas of our country in a safe and reasonable manner. Our use of stock in the backcountry includes work projects and pleasure rides/pack trips. We are active in projects that maintain the use of trails in our region's wilderness and primitive areas. Our projects are in support of local agencies that are responsible for keeping primitive trails open and useable in the wilderness and roadless areas as well as access trails to these areas.

We teach interested members of the horse and mule community how to safely enjoy the primitive wilderness with their stock while ensuring the continuation of our precious wilderness resources.
