

## Backcountry Horsemen of Washington Volunteer Hours Patch Program

The volunteer hours patch program is an excellent opportunity to award your members for their volunteer services. The Volunteer Hours Coordinator (VHC) will keep a running total of its members hours. When the member achieves a certain number of hours, they should receive Volunteer patches. Volunteer hours patches are available in 50,100,200,500 chevrons. (We will be checking into 1000-hour patches) They are to be sewn under the Triangle arm patch.

When the member has achieved their first 50 hours, they should receive their triangle arm patch and their 50-hour chevron. The Member should have a total of 50 hours on record.

The member must record another 100 hours to receive their next chevron. The member should have a total of 150 hours at that time.

The member must record another 200 hours before they can receive their next chevron. The member should have 350 hours at that time.

The member must record another 500 hours before they can receive their next chevron. The member should have 850 hours at that time.

Hours	50	150	350	850	1850
Triangle	X				
50	X				
100		X			
200			X		
500				X	
1000					X
